Dear Ed,

Thank you very much for your letter of 27 October and the enclosure. We will naturally treat it in accordance with the request you have made.

I also want to thank you for helping to arrange the visit in which we all had a useful exchange of views. I think that the project will certainly benefit from this. Enclosed herewith are five of our reports, pertinent to the window and environment problem. I thought that these might supplement the discussions and perhaps clarify some points.

We are exploring our capability to perform a definitive experiment in regard to environment and window. We will keep you informed of how this is progressing.

Thank you very much and best regards.

*Milt*
